## SPRING EDITION 4

Friday 5th February 2021

Value of the month: **Love**

As we approach the end of the first half of spring term the school is reviewing the experience of children learning from home.

Thank-you to all staff who are planning and teaching both in school and remotely.

The school is now planning some enrichment activities including art, engineering, dance and music for after half term. If you or your child have any other ideas please share them with us.

The pandemic has highlighted inequality and will continue to have far reaching consequences. To support our children, the school is going to create a time capsule containing children's art, diary entries, lockdown recipes etc. Further information will be shared after half term.

We hope to receive free school meals vouchers from Hammersmith and Fulham for the half term, which we will distribute to eligible families. For further information on how to apply, please contact the school office.

We will be looking at setting up a community street library. Thank you to the PTA volunteers who will be organising the library. Further information will follow after half term.

### Whole school assembly

Today we had **93** families attend the whole school assembly. The value for this month is Love. To celebrate, we would like to display a PowerPoint in next weeks assembly of children sharing their love for learning. Please can parents send messages and work from their children to [admin@kenmont.lbhf.sch.uk](mailto:admin@kenmont.lbhf.sch.uk). Please do not send any images/videos with faces as we cannot share these.

### Value of the week certificates

**Nursery:** Leticia, for showing a love for learning and love for her friends. She is always ready to participate in class.

**Reception:** Victoria, Caio and Joshua, for being dedicated to completing work posted on Google Classroom which conveys a love for learning and is really inspiring.

**Year 1:** Roma, because he loves learning and is always kind and considerate.

**Year 2:** Glen, for working hard, focussing and being a supportive member of the class.

**Year 3:** Alia, for showing a true love of learning and being so dedicated to all of her work.

**Year 4:** All of Year 4, for remaining positive throughout all of this, demonstrating true resilience and spreading the love of learning while learning from home.

**Year 5:** Gabrielle, for being really engaged and showing a love of learning in his live DT lesson this week. He has been producing some excellent work!

**Year 6:** Stanley, for helping others online and actively engaging with remote learning.

## Live Workshops, interventions and lessons

There may be times that teachers will request that children's cameras are switched on for workshops, interventions or live lessons.

Yesterday we sent out a parental agreement for camera's to be on during virtual live workshops, interventions and live lessons. At the bottom of the agreement was an opt in/out form which we are asking all parents/carers to complete. If you have more than one child, they can be added on one form.

Children's camera's will only be allowed on at the teachers request and if parents have signed the agreement. Camera's must remain off during whole school assemblies.

---

### Live Workout

On Monday we had 56 families join the live workout. Thank you to Miss Stokes and Coach Alex for leading the session. If you missed it, the workout has been recorded and shared on Google Classroom.

### February Fitness Challenge

We are challenging you to stay active and healthy this February. Each day you have a new challenge focusing on your wellbeing to complete, and we want to see how many you and your family can do. The teachers will also be taking part. The most important thing is to have fun, try your best and feel good!

## Internet Safer Day, 9th February 2021

Internet Safer Day, coordinated by the UK Safer Internet Centre, is an annual celebration aiming to raise awareness of emerging online issues and concerns amongst young people, from cyberbullying to social networking to digital identity.

The BBC will have 30-minute Live Lesson in partnership with the UK Safer Internet Centre, aimed at primary-aged children and linked to the primary computing curriculum. Children will be able to learn about how to stay safe, responsible and wise in an increasingly digital world, with tips and advice from some of the biggest personalities on the web.

The lesson will be on 9th February 2021 at 11am via the following link:

# Children's work

By Tula

By Mya

Maryam was selected for the weekly 100 Word Challenge showcase, winning a certificate and a blog badge. The 100 Word Challenge is a writing challenge where children from all over the world submit 100 words they have written in response to a prompt.

## The happy man

There once lived a man who used to be happy But one day something terrible happened. The man was not any ordinary man he was a demon. What happened was that he was so caught up in making others happy that he forgot to hide his horns, while a gust of wind blew his hood down. Even though the man helped so many people he still got killed. The man helped one boy in the streets once and took him home when the boy heard what happened the boy got devastated that he made a sculpture of the man on a tree.
